

## **Statement on the Road To Housing Act of 2025**

July 31, 2025

The Community Opportunity Alliance applauds the Senate Banking Committee for advancing the bipartisan ROAD to Housing Act, the most ambitious federal housing proposal we've seen in decades. As it moves to the full Senate, we're encouraged by its potential to expand access, preserve affordability, and address critical supply challenges. Also, we urge continued focus on empowering local communities, especially trusted organizations and workforce partners, to lead implementation. From preservation to new construction, housing investments must also support the people and infrastructure that keep residents stably housed. We look forward to helping shape a bill that strengthens both homes and the communities around them.
